Your Heavy Duty Parts Source

March 2003

Engine Kits from Endurance Power

Endurance Power Products offers engine kits for Agricultural, Truck, Construction & Industrial, Light-Truck & Automotive applications.

New Products at Endurance

- New John Deere Bosch KDEL injectors
- Navistar DT466E New Generation engine parts.
- Oil pumps for John Deere 300 Series engines
- New water pump for John Deere 6076 engines

We pride ourselves in providing quality replacement parts at a competitive price.

Our program offers comprehensive warranty coverage.

We offer a complete assortment of overhaul kits for diesel and gas engines, all makes and models.

With Endurance Power's products you can do more than just lower rebuilding cost – you can help eliminate problems. Shown here is a partial listing of some of our innovative engine parts .

- Hyper-formance kits for John Deere® 400 series engines provide superior wear resistance and compression enhancement.
- Navistar® DT466 4-ring kit reduces blow-by and oil contamination.
- IPD Style Crevice Seal Liners for Caterpillar® 3400 series engines which helps reduce the amount of cylinder liner movement.

Pre-Season Air Conditioning Program

Endurance Power Products is your factory direct warehouse for air conditioning parts.

Our pre-season discount program is in effect until March 28, 2003. Contact our friendly sales staff for details.

Order early and save!

We carry a full line of air conditioning components: Compressors, clutches, driers, expansion valves, seal kits, condensers, evaporators, blower motors, switches, hose assemblies, fuses, fittings and more.

WE'RE ON THE WEB ENDURANCEPOWER.COM

We have updated our web site in January!

Be sure to check out our new design.

We are excited about the opportunity to provide support with this service. The site will be updated on a regular basis to provide details on new products and guides to our products.

Continual growth of our product line is a key to Endurance Power service.
Providing our customers with more products to be competitive with.

John Deere® 300 Series Engine Oil Pumps

Now in stock , new oil pumps for JD 300 series engines.

We offer the two different pumps used on these engines.

NAR79464: 2" internal gears

NRE55343: 1-5/8" gears

New pumps, priced right !

Navistar® DT466E New Generation Engine Parts

We are currently stocking engine parts for the DT466E PLN & HEUI engines. Our kits are supplied with IPD's proven 4-ring piston design and induction hardened cylinder liners.

In addition to engine kits we offer roller lifters, injectors, valve train components, water pumps and turbochargers.

John Deere® 6076 V-max New Water Pump

NRE68230 Water pump, new
Marked: RE39121, RE68230
Application: 6076 s/n 500000?

This water pump is used on all of the later 6076 engines. Deere offers two different pumps that have slight differences in the impellers. We are offering the high output version of the two, which can be used interchangeably.

New Injectors—No Core Required

We are proud to announce the addition of new Bosch KDEL injectors for John Deere Engines.

With the addition of these new injectors, we will no longer be dependent on cores. Best of all, these new injectors are offered at prices that are competitive with rebuilt injectors with no core return involved.

These injector are an addition to the new pencil style injectors for 300 series engines already in stock.
