Remanufactured Connecting Rods

Endurance Power Products stocks a *large inventory* of remanufactured connecting rods.

We utilize a thorough remanufacturing process. All connecting rods are checked for bend, twist and length, to assure rod integrity and optimum engine performance.

All John Deere diesel connecting rods include new press-fit bushings that are bored to size and on-center, ensuring proper rod length and like-new performance.

When overhauling your engines, don't take chances. Save time and money with Endurance Power remanufactured connecting rods.

Connecting Rods In Stock:

- Allis Chalmers
- Case
- Caterpillar
- Cummins
- Detroit
- Deutz
- Ford
- International
- John Deere
- Navistar
- Perkins

Remanufactured Cylinder Heads

We stock most makes & models of diesel engine cylinder heads, bare or complete.

All tolerances are brought to factory exact specifications. Only the highest level of component parts are used.

Endurance Power provides a head that your customer will have confidence in, backed by the best warranty in the industry. Same as factory, but a fraction of the cost. We save you big bucks.

Another advantage - our 'cracked core' no hassle core charge. There are no hidden charges if we are able to rebuild your core.
