News at Endurance

- Cummins® B Series new cylinder heads
- John Deere Powertech® engine parts
- A/C compressor special sale
- Goodyear AGRI-TORQUE® variable speed belts for combines.

Cummins® B Series Cylinder Heads

We now stock NEW Cummins B Series cylinder heads with valves. New castings, new valve train, no core charge.

3920005V 4B 7mm or 9mm injector

3934747V 6B 7mm or 9mm injector

We also stock a full line of engine kits, components, and parts for Cummins B and C series engines.

Agricultural - Construction - Industrial - Light Truck

John Deere Powertech® Engine Kits and Parts

Endurance Power is continually providing our customers with expanded product lines. We have in stock parts for the 4.5L, 6.8L, and 8.1L Powertech® engines. These engines are used in a variety of Agricultural and Construction applications. Call today!

- ◆ Overhaul kits
- ◆ Oil pumps
- ◆ Water pumps
- ◆ Injectors
- ◆ Turbochargers
- ◆ Cylinder heads

- ◆ Cam and lifters
- ◆ Valve train
- ◆ Gaskets and seals
- ◆ Bearings

A/C Compressor - Inventory Reduction Sale

Special pricing on (2) of our A6 Compressors:

1131250L	New A6 - Mineral oil	5-3/4 pulley	JD/Allis	\$ Call*
50-037	Reman A6 w/ new clutch	5-3/4 pulley	JD/Allis	\$ Call*

(*This is an inventory reduction, prices good while supplies last)

Endurance Power carries a complete line of air conditioning components and parts for Automotive & Heavy Duty applications.

Goodyear AGRI-TORQUE® variable speed belts for Combines

Compare the Goodyear AGRI-TORQUE® belt to common agricultural replacement belts. You'll see the difference in the design, materials, and construction

GOODYEAR
AGRI-TORQUE® Variable Speed Belt

Produced to ASAE Standard S211.4

AGRI-TORQUE® belts provide perfect fit, on combine drives.

Heavy gauge FLEXTEN™ tensile members for high break strength

These belts will help keep you running - even in the mud.

Self-cleaning shallow cogs

Keep your belt running clean and efficient.

FLEXTEN™ pulp or fiber loaded WINGPRENE™ cushion

Excellent stability on hot summer days. Helps eliminate spin-burn damage to allow precise harvest speed.

COMMON
Imported Variable Speed Belt

Produced to RMA standards

For a perfect fit on *industrial* drive pulleys. May provide marginal life on farm equipment drives.

Medium gauge, polyester aramid tension members

Adequate for many *industrial* drives.

Cut cog design

Adequate for only cooler running indoor commercial drives or farm equipment drives of the "50's" or "60's".

Natural rubber blend without fiber reinforcement

Limits belt heat resistance and ability to transmit higher work loads on modern combines.

AGRI-TORQUE® BELTS TOUGH, SURE, DEPENDABLE

Applications for: Allis Chalmers / Gleaner - Case / IH - Ford / New Holland - John Deere - Massey Ferguson - White
