## Balancer shafts for JD 300 Series Engines

The balancer shafts turn two times engine speed and are wearing parts. In fact, the main cause of major engine failure in 300/350 Series John Deere® Engines involve balancer shafts and balancer shaft bushings. Failures including these parts usually result in damage to the block and crankshaft as well.

(replaces JD AR43954, AR57241, AR102218)

## Remanufactured Cylinder Heads

We stock most makes & models of diesel engine cylinder heads, bare or complete.

All tolerances are brought to factory exact specifications. Only the highest level of component parts are used.

Endurance Power provides a head that your customer will have confidence in, backed by the best warranty in the industry. Same as factory, but a fraction of the cost. We save you big bucks.

Another advantage - our 'cracked core' no hassle core charge. There are no hidden charges if we are able to rebuild your core.
