## Crankshafts - Full line of new crankshafts

All new crankshafts (unless noted as cast) are made of forged steel. This insures crack resistance, even under the heaviest loads. Every crankshaft is functionally equivalent to OEM specifications.

We have a wide range of coverage and are committed to supplying the highest quality crankshafts available.

Call today or check out our list on our website

*The following is a listing of some of our most popular crankshafts.*
